

## 2016 COA Championship Series – COA Cup

The COA Championship Series is open to COA members only and is decided from the results obtained by eligible boats competing in a selection of races throughout the year. Prizes will be awarded to the top 3 ranking COA Member Boats.

Scoring is based on the Cox-Sprague (1994 modified) scoring system with a default minimum of six starters in any race using the placing results published by the organizing authority for each race. Where Regatta's are included the overall results for the Regatta are used as a single result per boat.

Points are weighted according to the type of event. COA / Macau races have a weighting of 1.5, COA individual races have a weighting of 1.00, Regatta's have a weighting 1.25 and individual races have a weighting of 0.75.

The following races selected from the calendars of the Yacht Clubs around Hong Kong will be taken into account for the 2016 COA Championship Series :
